- Thursday, 10:30am - 11:30am, McHenry Library, Classroom 1261

Grading:

- Participation: 100%

Discussion Section

The purpose of the discussion section is to give students an opportunity to clarify the key topics mentioned during lecture. We will begin section with an ungraded quiz which will be presented on the board. This quiz will consist of questions you should be familiar with, but may not have mastered. After the quiz, we will discuss the questions as a class. *Submission of quizzes is how attendance will be taken, therefore, if you do not submit your quiz, you will not be given credit for attending.*

Office Hours

Office hours is time set aside by a teaching assistant or instructor for students to ask questions. *My office hours are for you.* You may ask me anything you want about the course. I highly recommend if you feel like you are struggling to go to office hours (either mine, another TA's, or instructor's).

Calendar of TA Office Hours: <https://www.math.ucsc.edu/courses/ta-office-hours.html>

Expectations

Show up to discussion section and participate.
